

The most relaxed sofa of all time. The ultra-soft upholstery of the SANDER Sofa is reminiscent of a mountain of marshmallows. And that's exactly how it feels. Fascinatingly soft and surprisingly dreamy. Passionate joy in design and references to Postmodernism are recognizable in the design language. The idea of creating a sofa that offers maximum comfort and tranquility without becoming formally monotonous characterizes the design. Innovative modules and combinations give you the freedom to tailor SANDER to your needs. With the deep Loveseat, your date night will be particularly cozy. An innovative upholstery of the latest generation meets a high-quality spring core and gives SANDER timeless quality. The covers are hand sewn with masterful skill and a great deal of time. They are extremely durable and easy to maintain. The assembly is as simple as possible, without screws and stress. Just let yourself sink into the fluffy, soft upholstery of the SANDER Sofa. This is your time to be mellow.
